Product information

G Data TotalCare 2012

Simple. Safe. Resource saving.

In addition to its award-winning virus detection rates, G Data TotalCare has a new idle scan feature which scans the system when it is idle to utilize your system's uptime efficiently.

Cloud-based analysis of suspicious files and the silent firewall give your system an effective all-round defence against viruses, worms, spam and hacking - without loss of performance and without tedious queries.

Includes an all-new image backup module and security tuning.

Award-winning security

- Best virus detection rates with DoubleScan technology and OutbreakShield
- Extremely fast response time to new viruses
- Most up-to-date recognition methods for unknown viruses (behaviour blocking, heuristics, CloudSecurity)

Low-profile virus protection

- ***NEW!*** Idle scan: virus checking when the user or system is inactive
- ***NEW!*** Proactive protection against online banking Trojans
- ***NEW!*** Improved Add-In for Outlook for detection of viruses and spam email
- ***NEW!*** On-execution monitoring mode specially for heavily-loaded systems

Image backup and security tuning

- ***NEW!*** Back up and restore your whole system with the image backup module and optimize your overall PC security

Includes a **1 year licence** for **G Data TotalCare 2012**:

- hourly virus signature updates
- all software updates and free update option for new versions
- Free download of **G Data MobileSecurity** for smart phones with Android™ OS (regular price: 9,99 €)
